

Decade by Decade with SFI

In **ONE** clear, concise sentence, directly state the major change over time for each of the following decades. Then, list five bits of specific factual information from that decade that support your change over time, in descending order of importance. For **ONE** piece of information from **EACH** group, write a clear direct statement (interpretive commentary) that shows **HOW** or **WHY** that specific factual information proves your change over time.
