94. The Mississippi Black Code (1865)

Source: *Walter L. Fleming, ed., Documentary History of Reconstruction (Cleveland, 1906-07), Vol. 1, pp. 281-90.*

During 1865, Andrew Johnson put into effect his own plan of Reconstruction, establishing procedures whereby new governments, elected by white voters only, would be created in the South. Among the first laws passed by the new governments were the Black Codes, which attempted to regulate the lives of the former slaves. These laws granted the freedpeople certain rights, such as legalized marriage, ownership of property, and limited access to the courts. But they denied them the right to testify against whites, serve on juries or in state militias, or to vote. And in response to planters' demands that the freedpeople be required to work on the plantations, the Black Codes declared that those who failed to sign yearly labor contracts could be arrested and hired out to white landowners. The Black Codes indicated how the white South would regulate black freedom if given a free hand by the federal government. But they so completely violated free labor principles that they discredited Johnson's Reconstruction policy among northern Republicans.
